

Symposium 03

The inflamed Brain in Alcohol Addiction (IBRAA): Novel Approaches in Assessment and Targeting

Chair of the session : Santiago Canals

Co-Chair : Dr. Philippe de Timary

Silvia De Santis - Instituto de Neurociencias Alicante, Spain

- What microstructural MRI can tell us about brain inflammation and degeneration in alcohol addiction

Sophie Leclercq - Institute of Neuroscience University Catholic of Louvain, Belgium

- Nutritional approaches to investigate the gut-brain axis in AUD patients

Wolfgang Sommer - Central Institute of Mental Health, Manneheim, Germany

- Neuroinflammation and Biased Decision Making: Alcohol's Hidden Impact on Brain Communication

Free oral communications

Chair of the session : Colin Drummond

Maria Cameira - Centro Hospitalar Psiquiátrico de Lisboa, Portugal

- Management of psychiatric comorbidity in AUD patients at Psychiatric services"

Sofia Hemrage - King's College London, United Kingdom

- Treatment engagement in comorbid alcohol use disorder and alcohol-related liver disease: a qualitative exploration of barriers and facilitators with service users

Naina Shah - King's College Hospital, United Kingdom

Symposium 04

Craving in alcohol use disorder

Chair of the session : Otto Lesch

Co-chair : Joana Teixeira

Henriette Walter - Medical University of Vienna, Austria

- Cut Down drinking - a way to abstinence

Samuel Pombo - Hospital de Santa Maria - Neuroscience Department, Portugal

- Psychological models of craving

Otto Lesch - Medical University of Vienna, Department of Psychoanalysis and Psychotherapy, Austria

- How to use anticraving medications for different subgroups of alcohol dependence

Joana Teixeira - Centro Hospitalar Psiquiátrico de Lisboa, Portugal

- Craving in clinical practice: the repeated use of inpatient alcohol treatment units

Symposium 05

Emerging therapeutic targets in alcoholic liver disease session

Chair of the session : Otto Lesch

Co-chair : Joana Teixeira

Gyongyi Szabo - Harvard Medical School, Boston, USA

- Cut Down drinking - a way to abstinence

Nordmann Award Meeting 2024

22nd of October, 2024

Alcohol use disorders and comorbidities, new therapies

Program - 22nd of October, 2024

- 08h30 **Opening ceremony**
Prof Mickael Naassila, President of ESBRA
Dr Joana Teixeira, President of the Portuguese Society of Alcoholology
- 08h45 **Symposium 01 - Psychedelics in AUD : From mechanisms to targeted intervention**
- Fahd Hilal - Université de Picardie Jules Verne, France
 - Marcus Meinhardt - Central Institute of Mental Health, Germany
 - Katrin Preller & Marcus Herdener - Psychiatric Hospital, University of Zurich, Switzerland
- 10h00 **Symposium 02 - Simultaneous treatment of AUD, comorbidity and social/familial dysfunctionality in Alcohol Outpatient Clinic**
- Iannis Mouzas - University of Crete, Greece
 - Evangelos Grinakis - Alcohol Outpatient Clinic, University Hospital of Heraklion, Greece
 - Constantina Coucoutsis - Gastroenterology Clinic, University Hospital of Heraklion, Greece
- 11h15 **Break**
- 11h30 **Symposium 03 - The inflamed Brain in Alcohol Addiction (IBRAA): Novel Approaches in Assessment and Targeting**
- Silvia De Santis - Instituto de Neurociencias Alicante, Spain
 - Sophie Leclercq - Institute of Neuroscience University Catholic of Louvain, Belgium
 - Wolfgang Sommer - Central Institute of Mental Health, Mannheim, Germany
- 12h45 **Lunch Break**
- 13h45 **Free oral communications**
- Maria Cameira - Centro Hospitalar Psiquiátrico de Lisboa, Portugal
 - Sofia Hemrage - King's College London, United Kingdom
 - Naina Shah - King's College Hospital, United Kingdom
- 15h30 **Break**
- 15h45 **Symposium 04 - Craving in alcohol use disorder**
- Henriette Walter - Medical University of Vienna, Austria
 - Samuel Pombo - Hospital de Santa Maria · Neuroscience Department, Portugal
 - Otto Lesch - Medical University of Vienna, Department of Psychoanalysis and Psychotherapy, Austria
 - Joana Teixeira - Centro Hospitalar Psiquiátrico de Lisboa, Portugal
- 17h00 **Symposium 05 - Emerging therapeutic targets in alcoholic liver disease session**
- Gyongyi Szabo - Harvard Medical School, Boston, USA
 - TBC

Presentation summary

Symposium 01

Psychedelics in AUD : From mechanisms to targeted intervention

Chair of the session : Marcus Meinhardt
Co-chair of the session : Jerome Jeanblanc

Fahd Hilal - Université de Picardie Jules Verne, France

- Efficacy of lysergic acid diethylamide (LSD) on alcohol seeking after abstinence in rats: influence of individual differences.

Marcus Meinhardt - Central Institute of Mental Health, Germany

- Psychedelics in psychiatry: Hope or Hype? – Insights from preclinical animal models with focus on AUD

Katrin Preller & Marcus Herdener - Psychiatric Hospital, University of Zurich, Switzerland

- Psilocybin-assisted therapy for alcohol use disorders - learnings from recent RCTs

Symposium 02

Simultaneous treatment of AUD, comorbidity and social/familial dysfunctionality in Alcohol Outpatient Clinic.

Chair of the session : Iannis Mouzas

Iannis Mouzas - University of Crete, Greece

- Networking in Alcoholology

Evangelos Grinakis - Alcohol Outpatient Clinic, University Hospital of Heraklion, Greece

- Basic Medical Skills for Psychiatrists

Constantina Coucoutsis - Gastroenterology Clinic, University Hospital of Heraklion, Greece

- Reaching therapeutic Alliance : Preconceptions and Challenges

About Nordmann Award

The Nordmann Award, presented by the European Society for Biomedical Research on Alcoholism (ESBRA), rewards a young scientist for significant scientific contributions to biomedical research on alcoholism.

Location

Lisboa Congress Centre Praça das Indústrias,
1300-307 Lisboa
